the sofa tailor

Hannabi was founded in 2010 in Budapest, Hungary. The brand offers person-centered services and the team is committed to high quality: in their projects they combine traditional upholstery with methods used in fine and applied arts. Their ergonomic solutions and accessories are tailor-made to perfectly fit customers' needs and provide a special opportunity for a sustainable yet quality lifestyle.

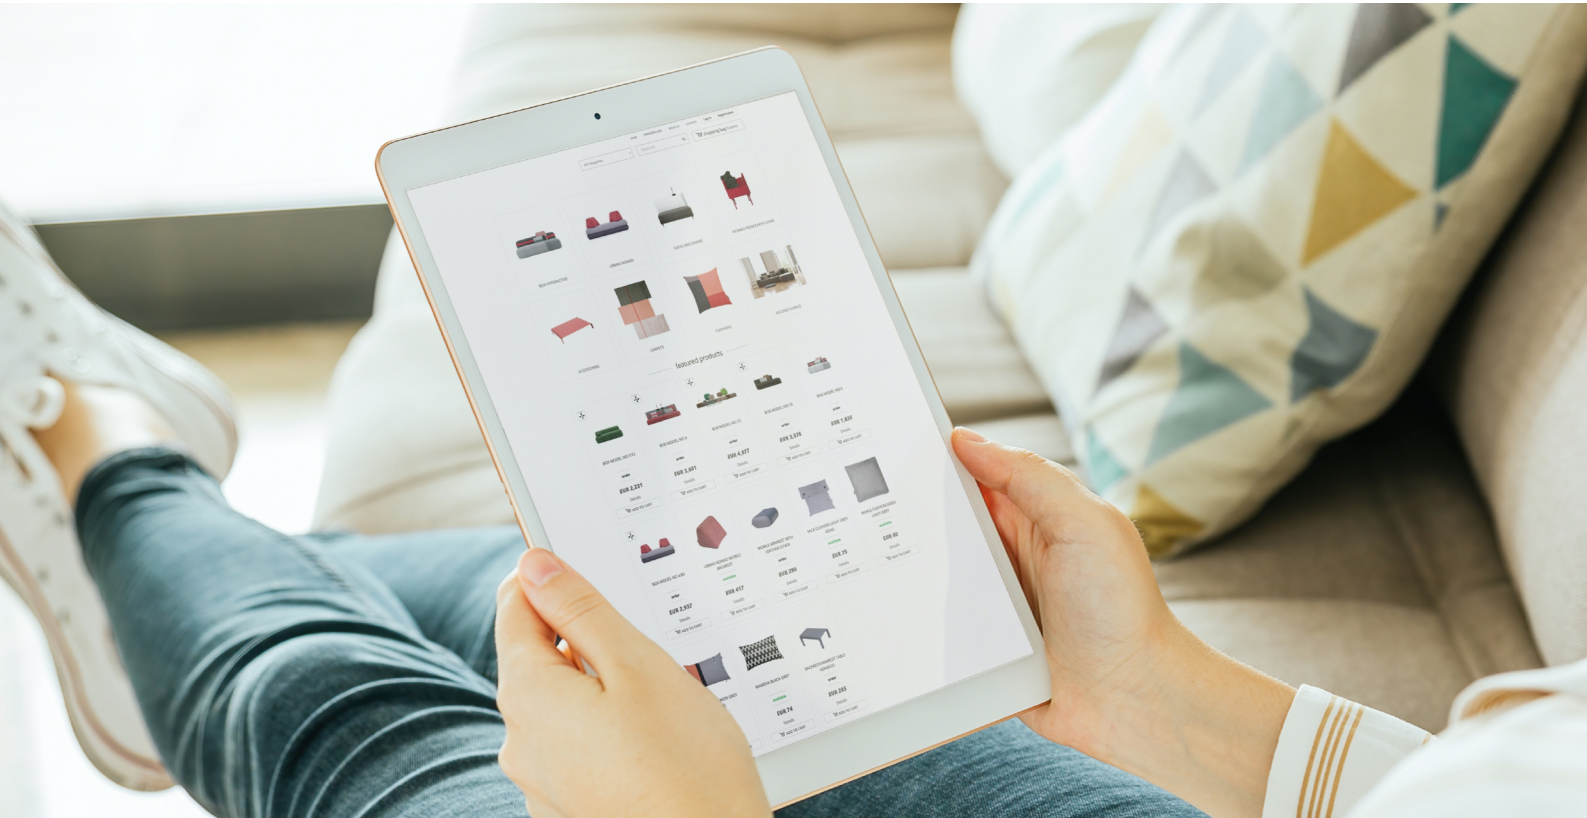

Hannabi's custom software guarantees an exclusive experience for everyone with its interactive online design process at <https://konfi.hannabi.hu/>

More about the website:

The WST team worked closely with Hannabi to develop an interior design software for real-time modeling of its products, and install a custom webshop. The 3D visualization software offers adaptable elements, checks the final design and automates pricing.

Hannabi has quickly become very popular in the region due to its unique approach to customers. Their clients include the headquarters of the UN in Vienna, the Hungarian National Gallery, the Hungarian Embassy in Austria and counting.
